

'Renaissance'

CPVO: Renaissance, Application No.: 20161235

Cultivar description

Harvest time	junebearer, midseason to late, 2 days later than 'Elsanta'
Reference cultivars	gourmet fruit, rich aroma pattern without comparison in the assortment
Fruit size	medium (19-20 g on average)
Fruit appearance	shiny red, attractive, glossy, heart-shaped
Fruit firmness	firm flesh, medium firm skin
Shelf life	good scores, suitable for direct marketing
Flavour	highly aromatic, extraordinary high flavour due to high ester, terpenoid and lactone contents, result of breeding work assisted by chemical and sensory analysis, balanced high sugar-to-acid ratio
Yield	high
Picking	medium, harvest without calyx possible by trained pickers (for processing)
Plant habit	vigorous, stable plantation without plant losses on the field
Resistances	healthy plants, no obvious susceptibility to diseases, fully winterhardy, not susceptible to late frost
Use	fresh market, direct marketing, processing (puree, aroma extraction, smoothies, jam, perfect for freeze drying because of excellent structure), home garden
