

'Rendezvous'

CPVO: HansRend, Application No.: 20190144

Cultivar description

Harvest time	junebearer, very early
Reference cultivars	`Clery`, `Flair`
Fruit size	large to medium (20-26 g on average, first fruit up to 34 g)
Fruit appearance	shiny bright red, very attractive, very glossy
Fruit firmness	firm flesh (excellent mouth feeling), robust fruit skin
Shelf life	best scores, glossy also after storage
Flavour	very pleasant, aromatic, high sugar-to-acid ratio, no drift, stable also after storage
Yield	high (higher than Clery und Flair), large fruit with higher percentage of class 1 fruit
Picking	easy
Plant habit	vigorous
Resistances	healthy plants, no obvious susceptibility to diseases, prophylaxis to powdery mildew suggested under protected cultivation systems
Use	fresh market, early market, home gardens
